REMARKS

Box PATENT APPLICATION

Assistant Commissioner for Patents

Washington, D.C. 20231

Sir:

The above-captioned application is a continuation of Application Number 09/205,945 filed on December 4, 1998 to which priority is claimed under 35 U.S.C. 120.

The specification has been revised to incorporate amendments filed in the parent application. The related applications paragraph has been revised to include the parent application. No new matter has been added.

The claims filed in the attached continuation application cover the system disclosed but not claimed in U.S. Patent 5,232,664, filed September 18, 1991. In particular, note in the '664 patent the cartridge frame 20 in Figure 6 and described in column 7, lines 9-24. The subject application claims priority to an application filed May 11, 1992. The attached Declaration states that the invention was completed prior to the September 18, 1991 filing date of the '664 patent. Accordingly, the '664 patent cannot be considered as prior art to the present claims.

The attached Declaration has been approved by both inventors. Upon receipt of an application number, a copy will be forwarded to the inventors for signature and will be filed in the near future.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
